PROJECT

Research Publication and Journal

Built a web platform using React.js and Tailwind CSS for managing academic paper submissions and publications. Integrated Firebase for user authentication and real-time data handling. Focused on clean UI, modular components, and seamless user experience.

Portfolio

Tech Stack: React.js, CSS

Description: A personal portfolio to showcase projects and skills with a clean, responsive design.

Contribution: Designed and built the UI from scratch, deployed it using GitHub Pages.

Music App (In Progress)

Built the frontend UI using React and Tailwind, integrated mood detection API, and worked on data flow using state management.

EDUCATIONAL HISTORY

Bachelor of Computer Application (2022 - 2025)

Focused on core programming, web technologies, data structures, and software development. Built strong foundational knowledge in frontend development, databases, and computer science principles.

High School (2019 - 2020)

Studied core subjects including Mathematics, Science, History, and English. Built strong fundamentals in logical thinking and general academics.

Intermediate (2021-2022)

Completed coursework in Physics, Chemistry, and Mathematics. Gained a solid foundation in analytical thinking and scientific reasoning.

SKILLS

HTML5

CSS3

JavaScript

React.js

Tailwind CSS, Bootstrap

Git & Github

Linux

ABOUT

Passionate and detail-oriented frontend developer with strong skills in React.js and modern web technologies. Eager to contribute to impactful projects while continuously growing as a developer in a collaborative environment.

Certification

01 MERN Stack Developer (pwwskill)

02 MERN Stack Developer (Udemy)
